## SCHOLARSHIP AND PRIZES :

### List of Award Winning Students in Various Activities From Academic Year 2017-2018- to 2021-2022

The college is very proud of involvement of these students in various activities. Their active participation in various events will inspire the other students to participate. The college is felicitated them with Memento and Certificate in respective years.

Academic Year	S. No.	Name of the Students	Class	Name of Award
2017-2018	1.	Mr. Gaikwad Kapil	B.A. Third Year	Best Cultural Person
	2.	Mr. Londe Akash Rangarao	B.A. Second Year	Best NSS Volunteer
	3.	Mr. Gaikwad Kapil R.	B.A. Third Year	Best Sports Person
	4.	Ms. Kalewad Arti Sambhaji	B.A. Third Year	Best Library User
2018-2019	1.	Mr. Ingle Sagar Jairam	B.Sc. First Year	Best Cultural Person
	2.	Mr. Gaikwad Navnath Pandurang	B.A. Second Year	Best NSS Volunteer
	3.	Ms. Patil Kanchan Dhaval	B.A. Third Year	Best Sports Person
	4.	Ms. Sangita Govind Indrakshe	B.Sc. Third Year	Best Library User
2019-2020	1.	Mr. Bansode Vinod Maroti	B.A. Second Year	Best Cultural Person

	2.	Mr. Ingle Sagar Jairam	B.Sc. Second Year	Best NSS Volunteer
	3.	Mr. Pole Sushant Nagorao	B.A. Third Year	Best Sports Person
	4.	Ms. Shaikh Masira Shaikh Saddas	B.A. Third Year	Best Library User
2020-2021	1.	Ms. Anisha Dilip Dodake	B.A. Third Year	Best Cultural Person
	2.	Mr. Ghogare Akash Bhimrao	B.A. Third Year	Best NSS Volunteer
	3.	Mr. Misale Manoj Raosaheb	B.Sc. second Year	Best Sports Person
	4.	Ms. Dodake Anisha Dilip	B.A. Third Year	Best Library User
2021-2022	1.	Ms. Tarte Neha Ashokrao	B.A. Third Year	Best Cultural Person
	2.	Ms. Kawtikwar Sejal Sainath	B.Sc. Second Year	Best NSS Volunteer
	3.	Mr. Bhalerao Swapnil Subhashrao	B.A. Third Year	Best Sports Person
	4.	Ms. Yadav Priyanka Hiralal	B.A. First Year	Best Library User

## वाचन कट्टा (२०१७-१८ ते २०२२-२३)

विद्यार्थ्यांना अभ्यासाव्यतिरिक्त वाचण्याची गोडी निर्माण व्हावी म्हणून मराठी विभागाने वाचन कट्टा हा नवीन उपक्रम शैक्षणिक वर्ष 2017 -18 पासून सुरुवात केलेली आहे. या उपक्रमात विद्यार्थी सहभागी झाल्यानंतर त्यास विभागात असलेली पुस्तके मोफत स्वरूपात वाचायला मिळतात. तो विद्यार्थी पुस्तक घेऊन गेल्यानंतर आठ दिवसांच्या आत पुस्तक वाचून त्यावर अभिप्राय लिहिणे अपेक्षित आहे. ही पुस्तके जी दानशूर व्यक्ती असतात त्यांच्याकडून आणि विद्यार्थी सभासद म्हणून त्यांच्याकडील कुठलेही एक पुस्तक देऊन याचा सदस्य होऊ शकतो. आजपर्यंत (2022- 23) या कालावधीत या उपक्रमांतर्गत अनेक पुस्तक गोळा झालेले असून या उपक्रमाचा फायदा अनेक विद्यार्थ्यांनी आजपर्यंत घेतलेला आहे. पुस्तक वाचल्यानंतर मुलं एकत्र येऊन त्यावर चर्चा करणे, त्यावर परिसरात घेणे आणि त्याविषयी लेखन करणे अशा वेगवेगळ्या भूमिकेतून या वाचन कट्ट्याचा उपयोग केला जातो.

	
वाचन कट्टा फाईल.	वाचन कट्टा सभासद सदस्य होण्यासाठी केलेल्या अर्जाचा नमुना.

## Science Association Committee (Annual Report 2017 -18)

It is important to understand how much interest today's schoolchildren and students take in scientific and technical subjects and to what extent they consider undertaking scientific or technical careers. It is also generally recognised that efforts to interest young people in these areas must begin early and go beyond the classroom. In general Young people have a broadly positive attitude to science and technology in most countries. Japan is a notable exception, according to a study which shows that interest fell consistently

Studies have shown that students' attitudes to science are positively, and generally significantly, correlated with their science achievement. On the other hand, young people's understanding of science and technology appears better than that of their elders, largely owing to the rise in the level of educational attainment over time.

More specifically, an early sense of mastery of scientific or technical topics, as well as popular views about science and technology, affect how young people react to their studies in these areas. A study by the *International Association for the Evaluation of Educational Achievement* revealed that between 1970/71 and 1983/84 10-year-olds and 14-year-olds showed gains of two-thirds and one-third of a school year of science learning, respectively. Moreover, as for adults, science and technology must vie with other areas for their attention.

Indira Gandhi Sr. College has constituted several committees for overall development of the students. In the same way, the Science Association Committee also beneficial for the students for the various creativities in the field of science.

On dated 09 Aug 2017 on the occasion of Well come meet Arti Katewad and Yogesh Kale of B.Sc. III year took the charge of anchoring the event. For this event Dr. R. B. Kadam Principal is invited as chief guest and Dr. Khansole M. V, Dr. Shinde A. T and Dr. Solunke Kedar Deliverd lectures on Different Aspects to motivate the students.

Report on

**Science Association - 2019**

Submitted by

Dr. S. G. Tugaonkar

(Coordinator- Science Association)

Science is used in all our daily tasks. Our lifestyle has enhanced over the years. All this is because of the use of various scientific inventions. Everything is an invention of science which we use in our daily life i.e from tooth brush to computer and mobile phone. While we have borrowed various scientific ideas from the first world countries to develop our country, Indian scientists have also made great contribution to the world when it comes to the field of science. Some of these scientists include Salim Ali, Prafulla Chandra Ray, Homi Bhabha, C.V. Raman, Satyendra Nath Bose, Meghnad Saha, S.S. Abhyankar, Birbal Sahni, Prasanta Chandra Mahalanobis. Their research in the field of science and scientific inventions did not only benefit the country but also the rest of the world. They have made us proud with their inventions. Indians are known for their genius minds. Many of them have contributed to the field of science and technology in the past and several others continue to do so.

28<sup>th</sup> of February, 1928 was the great day in India when an invention in the field of Indian science was completed by the famous Indian physicist, Sir Chandrasekhara Venkata Raman. He was a first one in the science, who had researched such invention in India. To commemorate and honor this event always in the future, 28<sup>th</sup> of February was asked to the Indian Government to designate as a National Science Day in India by the National Council for Science and Technology Communication (NCSTC) in the year 1986.

The national science day was started celebrating all across the India as a great event in the field of Indian science. It is celebrated every year by students, teachers, scientists and researchers in all the schools, colleges, universities, educational institution including scientific, academic, medical, technical and research institutions of India. On the first celebration ceremony of the National Science Day in India, the National Council for Science and Technology Communication had declared the institution of the National Science Popularization awards in order to recognize an excellent and wonderful endeavor in the field of science communication and popularization.

Sir Chandrasekhara Venkata Raman had worked from 1907 to 1933 at the Indian Association for the Cultivation of Science, Kolkata, during which he had researched on many topics of the Physics from which the Raman Effect (effect on scattering of light when passing through different materials) became his great success and discovery which has been marked in the Indian history. For his big invention he was honored through the various Indian awards including the Nobel Prize in the year 1930. From the year 2013, the “Raman Effect” has been designated as an International Historic Chemical Landmark by The American Chemical Society.

During the national science day celebration of the year 2009, the Indian Department of Science and Technology has awarded the five Indian institutions through the National Award for Science Communication in order to recognize the big efforts and achievements of the Indian scientists of the government and non-government organizations for popularizing and leading the modern science in the country. The Vikram Sarabhai Community Science Centre was given the highest award in the year 2009 to recognize its big contribution to the science. The national science day has been started getting celebrated as the Science Carnival to recognize scientific activities and programs by the participation of students from school and college, scientists from the state and national faculties. This event celebration has provided a real platform for various new comer scientists to fix their feet and bright their career in the science profession.

### **OBJECTIVES OF CELEBRATING NATIONAL SCIENCE DAY**

- National Science Day is being celebrated every year to widely spread a message about the significance of scientific applications in the daily life of the people.
- To display the all the activities, efforts and achievements in the field of science for human welfare.
- To discuss all the issues and implement new technologies for the development of the science.

- To give an opportunity to the scientific minded citizens in the country.
- To encourage the people as well as popularize the Science and Technology.

### **Celebration of National science day in the college**

To make students active participants in Science field the department of Science and Humanities conducts various events, under Science Club, on this celebration.

The major idea of the celebration is to discuss all the issues and implement new technologies for the development in the field of science and to give an opportunity to the scientifically minded citizens in the country and to encourage the people as well as popularize the Science and Technology.

<b>Sr No</b>	<b>Events</b>	<b>Time</b>	<b>Date</b>	<b>Concern faculty</b>
1.	Online quiz competition	11.00 to 11.30	11-02-2019	Dr.Kadam D.B. and Dr.Sumant G.T.
2.	test to memories maximum number of elements on the occasion of celebration of <b>international year of periodic table</b>	12.00am	11-02-2019	Dr.Khansole.S.V and Dr.Kadam D.B.
3.	Poster Presentation competition ( <b>Renowned world scientist and their inventions</b> )	11.00am	11-02-2019	Dr.Khansole.S.V and Dr Metkar R.G.
4.	<b>Science quiz competition</b>	12.00am	12-02-2019	Dr.Lokhande M.V.,Dr Baise U.E. and Dr.Solunke K.R.
5.	Seminar competition ( <b>science for people and people for science</b> )	10.00am	13-02-2019	Dr.R.G.Pawle and Mrs.Rathod B.A.
6.	Science Book Exhibition	9.00 am	28-02-2019	Mr. S. B. Deshmukh

### **Results of Competitions on Science day**

**1. Online test on the occasion of The International Year of Periodic table “150 years Of Periodic Table: Test your Knowledge”**

- i) Sonvane Gajanan (B.Sc III)
- ii) Rachalwar Saiprasad Shivaji (B.Sc. I)
- iii) Bendre Somali (B.Sc. I)

**2. Test to memorize *maximum number of elements in periodic table* on the occasion of The International Year of Periodic table.**

- i) Rasika Sharad Kshirsagar (B.Sc. I)
- ii) Tiwari Jyoti Manoj (B.Sc. I)
- iii) Nayana Nagnath Ambhure (B.Sc.II)

**3. Poster presentation competition on Topic “Renowned World Scientist and their Inventions”**

- i) Ms. Indraksha Sangeeta Govind (B.Sc. III year)
- ii) Ms.Yewate Shraddha Kishanrao (B.Sc. II year)
- iii) Ms.Tiwari Manisha Manoj (B.Sc. III year)

**4. General Science Quiz Competition**

- i) Mr. Gajanan Sonvane (B.Sc. III year)
- ii) Mr. Pratik khandare (B.Sc. I year)
- iii) Ms.Gaware Kiran (B.Sc. II year)

**5. Seminar Competition on topic “Science for the people and people for the science.”**

- i) Yewale Swati (B.Sc II)
- ii) Tompe Pragati (B.Sc III)
- iii) Sonvane Gajanan (B.Sc III)

## **EVENT I: Online test on the occasion of The International Year of Periodic table “150 years Of Periodic Table: Test your Knowledge”**

The Periodic Table of Chemical Elements is one of the most significant achievements in science, capturing the essence not only of chemistry, but also of physics and biology. The year 1869 is considered as the year of discovery of the Periodic System by Dmitri Mendeleev. The year 2019 will be the 150th anniversary of the Periodic Table of Chemical Elements and has therefore been proclaimed the *"International Year of the Periodic Table of Chemical Elements (IYPT2019)"* by the *United Nations General Assembly and UNESCO*.

Indira Gandhi Senior College celebrated the National science Day- 2019 by organizing online test for all the students on the occasion of international year of periodic table. We decided to conduct an online examination because it has many advantage like it save paper, save time of both student and teacher. The analyzing the answer sheet is easy, accurate and less time consuming

The online test was arranged in seminar hall of the college and nearly 59 students appeared for the examination. The test was prepared by using the website [www.testmoz.com](http://www.testmoz.com). All the students solved online paper by with the help of their smart phone.

The question paper were contain 20 multiple choice questions with four options including one correct answer. All questions asked in examination are related with basic knowledge of periodic table, development of periodic table and

properties of elements. A time of 30 minutes were given to students to solve the test. Immediately after compilation of examination result were declared.

Dr .Kadam D.B., assistant professor department of chemistry and Dr Tugaonkar G.T. have taken efforts to for successful organization online test.

On the basis of performance of students in online test names of the following students were declared who receive first, second and third prize were given to the following students.

Sr. No.	Student Name	Class	Merit	Score	Time
01	Sonvane Gajanan Murlidhar	B.Sc. III Yr	First	80%	0:09:50
02	Rachalwar Saiprasad Shivaji	B.Sc. I Yr	Second	80%	0:11:16
03	Bendre Somali	B.Sc. I Yr	Third	75%	0:02:27

**EVENT II: A test to memorize *maximum number of elements in periodic table* on the occasion of The International Year of Periodic table.**

The year 2019 will be the 150th anniversary of the Periodic Table of Chemical Elements and has therefore been proclaimed the "*International Year of the Periodic Table of Chemical Elements (IYPT2019)*" by the *United Nations General Assembly and UNESCO*.

Indira Gandhi Senior College celebrated the National science Day- 2019 by organizing written *to memorize maximum number of elements in periodic table* for all the students on the occasion of international year of periodic table. The table is useful for modern students and scientist because it helps to predict the types of chemical reactions that are likely for an element. Rather than memorize facts and figures for each elements, a quick glance at table reveals a lot about the reactivity of an elements.

The written test was arranged in seminar hall of the college and nearly 50 students appeared for the examination. A xerox copy of blank outline of periodic table was provide to the students and asked write the maximum number of elements in periodic table.

The students who write maximum number of elements with accurate symbol and atomic number of elements in periodic table were declared winner of the competition. The following students were declared as the first, second and third winner of competitions.

Dr .Kadam D.B., assistant professor department of chemistry and Dr.Tugaonkar S. G. have taken efforts to for successful organization of the competition

Sr.No	Name of student	Class	Prize
1	Rasika Sharad Kshirsagar	(B.Sc. I)	I
2	Tiwari Jyoti Manoj	(B.Sc. I)	II
3	Nayana Nagnath Ambhure	(B.Sc.II)	III

**Students appeared for written test to memorize maximum number of elements in periodic table**

### **EVENT III: Poster presentation competition on Topic “Renowned World Scientist and their Inventions”**

**National Science Day** is celebrated in India on 28 February each year to mark the discovery of the Raman effect by Indian physicist Sir C.V. Raman on 28 February 1928. National Science Day is being celebrated every year to widely spread a message about the Importance of science used in the daily life of the people.

Indira Gandhi Senior College celebrated the National science Day- 2019 by organizing the poster competition for all the students of the college. The event was organized in order to develop presentation skill of the students and collect the information of various world famous scientists. The process of poster presentation will be a valuable learning experience for the college students. The topic for poster presentation was “***World Renowned Scientist and Their Inventions***”. The total twenty students were participated in poster presentation competition. The poster presentation competition was inaugurated by the auspicious hand of respected principal Dr G.N. Shinde of the college. On this occasion students prepared and presented their poster which includes research work of world renowned scientist, their biography and awards received by them. All the students of the college

The posters were prepared by student which throw some light on research work and inventions of world famous scientist which includes Indian physicist C.V.Raman and his Raman Effect , famous Indian biochemist Dr.Har Govind Khurana and his work related with genetic code and its function in protein synthesis. Albert Einstein- A science genius, Dr. A.P.J. Abdul Kalam –A missile man of India, Gregor Mendel -Father of Genetics,research work of famous scientist Amedo Avogadro , Interesting facts about mathematics given by great Indian mathematician Srinivas Ramanujan.

A committee of two assistant professors was formed to judge the performance related with poster presentation skill of the students. The member of committee includes Dr S.V.Khansole, Head department of chemistry and Dr.R.G.Metkar, Head department of Mathematics. They observed all the posters and judge the students performance on various points such as poster preparation style, scientific merits and subject matter on the poster and poster presentation skill of the students.

The process of poster presentation was a valuable learning experience for the college students. On the basis of performance of students first, second and third prize were given to the following students.

<b>Sr.No</b>	<b>Name of student</b>	<b>Class</b>	<b>Prize</b>
1	Ms. Indraksha Sangeeta Govind	B.Sc. III year	I
2	Ms.Yewate Shraddha Kishanrao	B.Sc. II year	II
3	Ms.Tiwari Manisha Manoj	B.Sc. III year	III

**Inauguration of poster competition by Dr.G.N.Shinde, principal of college.**

**Principal Dr.G.N.Shinde listening presentation of students**

**Committee members Students and are listening the presentation of students**

## **EVENT IV: General Science Quiz Competition**

National Science Day is celebrated all over India with great enthusiasm on 28<sup>th</sup> of February every year in order to commemorate the invention of the Raman Effect in India by the Indian physicist, Sir Chandrasekhara Venkata Raman who was awarded and honored with the Nobel Prize in the Physics in the year 1930.

On the eve of National Science Day students of the schools and colleges demonstrates various science programme like science exhibition based on themes and concepts, debates, quiz competitions, lectures, science models exhibitions and many more activities to widely spread a message about the significance of scientific applications in the daily life of the people, to encourage the people as well as popularize the Science and Technology. With this aim our college were organized various activities in campus during 11 February to 13 February 2019 “**General online Science Quiz**” were one of them which were conducted on **12 February 2019**. Notice regarding this programme circulated among students in their class, placed on Notice board. Students actively registered their name in various events, some students shown their interest in all the events.

For General Science online Quiz is organized in ICT hall 38 students were participated in the quiz. The quiz conducted at 12:00 to 1:00 pm. All the participants were present with their android cell phones. Some cell phones were willingly provided by faculties to needy students.

The quiz were start with auspicious hands of Honorable Principal of the college Dr. G.N. Shinde sir. Dr. Solunke K.R. ( Dept. of Environmental science) and Dr. Bais U.E. ( Head. Dept. of Zoology) were the committee members for organizing the quiz competition. The General Science Quiz competition programme proceeds and conducted by Dr. Lokhande M.V. (Coordinator of Quiz competition) with vote of thanks. The results is attached herewith.

### **EVENT V: Seminar Competition “Science for the people and people for the science.”**

National Science Day is celebrated all over India with great enthusiasm on 28<sup>th</sup> of February every year in order to commemorate the invention of the Raman Effect in India by the Indian physicist, Sir Chandrasekhara Venkata Raman who was awarded and honored with the Nobel Prize in the Physics in the year 1930.

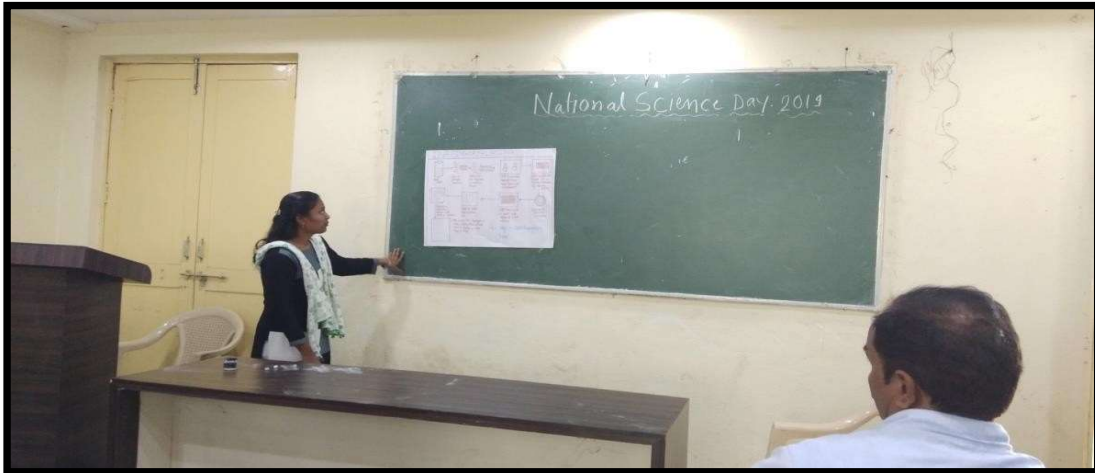

On the eve of National Science Day students of the schools and colleges demonstrate various science programmes like science exhibition based on themes and concepts, debates, quiz competitions, lectures, science models exhibitions and many more activities to widely spread a message about the significance of scientific applications in the daily life of the people, to encourage the people as well as popularize Science and Technology. With this aim our college organized various activities in campus during 11 February to 13 February 2019. “**Seminar competition**” were one of them which were conducted on **13 February 2019**. Notice regarding this programme circulated among students in their class, placed on board and also circulated through oral publicity well before the programme.

Students actively registered their name in various events, some students shown their interest in all the events.

For seminar competition six students were shown their interest for presentation. The theme of the seminar was “**SCIENCE FOR THE PEOPLE AND PEOPLE FOR THE SCIENCE**” which is approved by National Council for Science and Technology Communication, Government of India. Students present themselves by selecting various topics which were related with the theme. Every student was given five minutes to present and two minutes were interactions. All the participants were present orally, poster and by using blackboard also. Their interactions were harmonious. Programme starts at 11:00am in the Seminar hall.

Fish was prepared with name of the students and their selected topics and kept in a pond before start the programme, Honorable Principal of the college Dr. G.N. Shinde sir inaugurated the programme by selecting one fish from the pond and declared name of the participant and selected topic, then one by one student performed. Dr. Lokhande M.V. (Dept. of Zoology) and Dr. Khansole S.V. (Head. Dept. of Chemistry) were the experts. They keenly observed the presentation and given the merits on the basis of Selection of topic

, confidence over topic, their posture, interaction with audience. Programme proceeds and concluded by Dr. Pawale R.G.( Coordinator Seminar competition) with vote of thanks.

## **EVENT VI: Science Book Exhibition**

Library Books occupy a central and prominent place in all the teaching and learning processes whether the process is related to any subject and knowledge content of the research subject. The role played by text books in the teaching process is so important that some experts are of the view that it is on the quality of text books that the quality of teaching depends. Text books play an important role in saving the time and energy of the students as

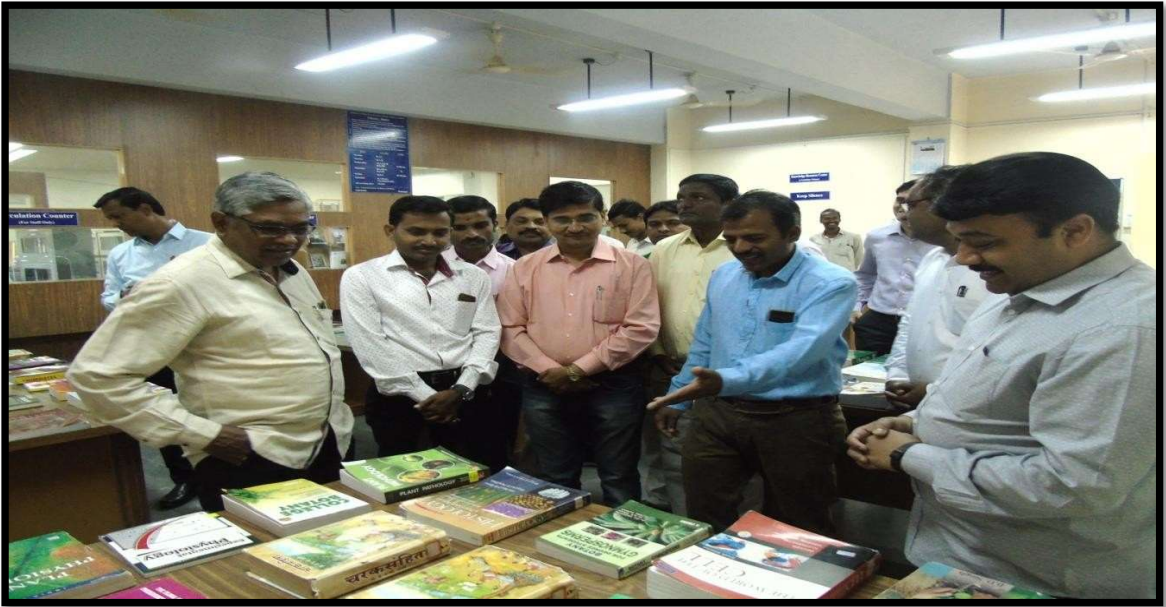

well as of the teachers as generally such books are readily available in the form of subject matter which is related to a particular or specific subject and they are written by experienced and eminent authors.

On the occasion of National science day on 28<sup>th</sup> February 2019, Department of Library has organized Science book exhibition. The event is inaugurated by the chief guest Dr. K. R. Kadam and Principal Dr. G. N. Shinde. During this event the science books on Electronics, Physics, Computer science, Chemistry, Mathematics, Microbiology, Botany and Zoology were open for observation.

During the event Dr. K.R. Kadam, responded that the students become able to get acquainted with the limitations and boundaries of subject matter with the help of books for their bright future.

The coordinator of library committee Dr. Vishal Maske , Librarian Mr. S. B. Deshmukh and Library attendant Mr. Sanjay Yalsatwar tried their best in the organization of the event.

## **EVENT IV: General Science Quiz Competition**

National Science Day is celebrated all over India with great enthusiasm on 28<sup>th</sup> of February every year in order to commemorate the invention of the Raman Effect in India by the Indian physicist, Sir Chandrasekhara Venkata Raman who was awarded and honored with the Nobel Prize in the Physics in the year 1930.

On the eve of National Science Day students of the schools and colleges demonstrates various science programme like science exhibition based on themes and concepts, debates, quiz competitions, lectures, science models exhibitions and many more activities to widely spread a message about the significance of scientific applications in the daily life of the people, to encourage the people as well as popularize the Science and Technology. With this aim our college were organized various activities in campus during 11 February to 13 February 2019 “**General online Science Quiz**” were one of them which were conducted on **12 February 2019**. Notice regarding this programme circulated among students in their class, placed on Notice board. On the occasion of National science day on 28<sup>th</sup> February 2019, Department of Library has organized Science book exhibition. The event is inaugurated by the chief guest Dr. K. R. Kadam and Principal Dr. G. N. Shinde. During this event the science books on Electronics, Physics, Computer science, Chemistry, Mathematics, Microbiology, Botany and Zoology were open for observation.

During the event Dr. K.R. Kadam, responded that the students become able to get acquainted with the limitations and boundaries of subject matter with the help of books for their bright future.

The coordinator of library committee Dr. Vishal Maske , Librarian Mr. S. B. Deshmukh and Library attendant Mr. Sanjay Yalsatwar tried their best in the organization of the event.

On 28-02-2019 the Eminent Ayurvedic Doctor and Industrialist Dr. Kanhaya R. Kadam is invited as chief guest and Principal Dr. G. N. Shinde Presided the event.

The event was inaugurated by offering flowers to the image of Dr. C. V. Raman. During the introductory speech the coordinator of the Science Association Dr. S. G. Tugaonkar said that the Events those are conducted in the college are celebrated as “Science week” and motivated students to take active role in such events.

Dr. K. R. Kadam in his Inaugural Speech interacted the students on the use of Medicinal herbs and Leeches in Modern Era. He showed several slides how to treat the deadly diseases like Leprosy, Diabetes with the help of leeches by showing the different patients and their treatment. He motivated the students to cure diseases by maintaining the balanced and fiber rich diet.

In the presidential address Dr. G. N. Shinde, interacted with the students and suggested several ideas for the implementation of modern research towards the betterment of society.

The three toppers of the events were felicitated by the dignitaries of this programme and The Prize distribution ceremony anchoring is done by Dr. Metkar R.G.

Student Nilesh Totewad took leading role in anchoring and Dr. D. B. Kadam delivered the vote of thanks of this programme. The key efforts to make this programme successful and beneficial for the students of this college are done by the all Science faculty members of the college.

## Science Association (Annual Report 2019 -20)

28<sup>th</sup> of February, 1928 was the great day in India when an invention in the field of Indian science was completed by the famous Indian physicist, Sir Chandrasekhara Venkata Raman. He was a first one in the science, who had researched such invention in India. To commemorate and honor this event always in the future, 28<sup>th</sup> of February was asked to the Indian Government to designate as a National Science Day in India by the National Council for Science and Technology Communication (NCSTC) in the year 1986.

The national science day was started celebrating all across the India as a great event in the field of Indian science. It is celebrated every year by students, teachers, scientists and researchers in all the schools, colleges, universities, educational institution including scientific, academic, medical, technical and research institutions of India. On the first celebration ceremony of the National Science Day in India, the National Council for Science and Technology Communication had declared the institution of the National Science Popularization awards in order to recognize an excellent and wonderful endeavor in the field of science communication and popularization.

### **Celebration of National science day in the college**

To make students active participants in science field the department of Science and Humanities conducts various events, under Science Club, on this celebration.

The major idea of the celebration is to discuss all the issues and implement new technologies for the development in the field of science and to give an opportunity to the scientifically minded citizens in the country and to encourage the people as well as popularize the Science and Technology.

Indira Gandhi Senior College celebrated the National science Day- 2020 by organizing the Essay competition, Poster presentation and Guest lecture on application of bioinformatics in drug discovery for all the students of the college. The event was organized in order to develop presentation skill of the students and collect the information of various world-famous scientists.

### **Celebration of National Science Day**

**Day I:** The Dynamic Personality Dr. Rohan J Meshram, Bioinformatics Centre, Savitribai Phule Pune University, Pune Delivered Guest lecture on “Application of bioinformatics in drug discovery” was organized on 17 Feb 2020. He informed the students about the recent developments in the process of drug discovery and use of technology in the drug discovery process.

**Day 2:** The essay competition theme was “**Invest in women and girls in science for inclusive green growth**” The competition was organized on 25 Feb. 2020 in this completion Nine students were participated and the event was inaugurated by Hon. I/C Principal Dr. S.W. Jagtap.

**Day 3:** The process of poster presentation will be a valuable learning experience for the college students. The topic for poster presentation was “***Role of women in Science***” on dated 26 Feb. 2020. The total Nine students were participitated in poster presentation competition. The poster presentation competition was inaugurated by the auspicious hand of respected Dr. Shendarkar sir, Tresurer Shri Sharda Bhavan Education Society, Nanded. On this occasion students prepared and presented their poster which includes research work of world-renowned Women scientist and awardees of Padmashree during 2019.

On 28-02-2020 the Eminent Personality Dr. Rajaram S. Mane, Director, Innovation Incubation and Linkages, SRTM University, Nanded is invited as chief Guest and I/C Principal Dr. S.W. Jagtap Presided the event.

The event was inaugurated by offering flowers to the image of Dr. C. V. Raman. During the introductory speech the coordinator of the Science Association Dr. S. G. Tugaonkar, he motivated the students to take active role in the curricular and cocurricular activities for overall development.

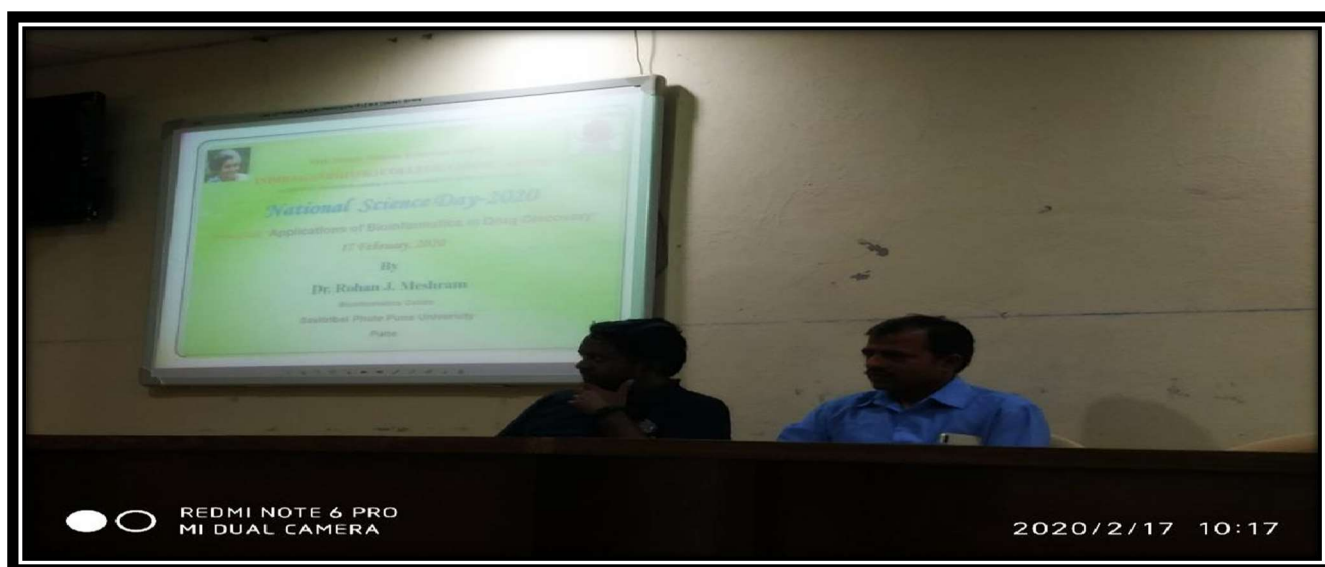

Dr. Rajaram S. Mane in his Inaugural Speech interacted the students on the aspects of Skill development and promoted the students regarding research and innovation. In the presidential address Dr. S.W. Jagtap, interacted with the students and suggested several ideas for the implementation of modern research towards the betterment of society.

The three toppers of the events were felicitated by the dignitaries of this programme and The Prize distribution ceremony and anchoring was carried out by Gangadhar Bhosale

## Science Association (Annual Report 2020 -21)

Science association is engaged in developing scientific temper among the students. It helps them to develop various skills and gather the knowledge regarding various developments in the field of science.

### **World science day**

It is observed on 10 November to highlight the importance and relevance of science in our daily lives.

The day also aims to ensure that citizens are kept informed of developments in science, the role that scientists play in broadening our understanding of the remarkable, fragile planet and making our societies more sustainable.

The theme for World Science Day for Peace & Development 2020 is "**Science for and with Society**". At the time when the world is suffering from COVID-19 pandemic, the focus of the day is on "Science for and with Society in dealing with the global pandemic".

In **2001**, World Science Day for Peace and Development was proclaimed by UNESCO and has generated several concrete projects, programmes, and funding for science around the world. The rationale behind celebrating the day is to focus on the importance of the role of science and scientists for sustainable societies and the need to inform and involve citizens in science.

On **10 November 2002**, the first World Science Day for Peace and Development was celebrated under UNESCO auspices. The celebration involved several partners

including governmental, intergovernmental, and non-governmental organisations, UNESCO National Commissions, scientific and research institutions, professional associations, the media, science teachers, and schools.

### **Celebration of World science day in the college**

The World Science day in college is celebrated on 10 Nov. 2020. Dr. Narkhede R.K. Head Dept of Environmental science, Maharashtra Udaygiri College, Udigir, is the chief guest for the webinar. In his talk he expressed his views on the celebration of world science day and informed the student on various developmental reforms and precautionary steps taken by Government to tackle the Covid- 19 Pandemic. In the presidential address Hon. Principal Dr. R.P Mali, Addressed the students regarding the several safeguard aspects of Covid-19 and motivated the students to be positive in dealing the Pandemic.

The event was anchored by B.Sc. III year student Ghogre Rutuja and Vote of thanks was proposed by Coordinator of Science association Dr. S.G. Tugaonkar.

### **Celebration of National science day in the college**

The major idea of the celebration is to discuss all the issues and implement new technologies for the development in the field of science and to give an

opportunity to the scientifically minded citizens in the country and to encourage the people as well as popularize the Science and Technology.

Indira Gandhi Senior College celebrated the National science Day- 2021 by organizing **Poster presentation and Seminar competition** by following all the guidelines of COVID -19. The event was organized in order to develop presentation skill of the students and collect the information of various world famous scientists.

On 28-02-2021 the Eminent Personality Dr. Gajanan B. Zore, Coordinator, Centre for Agro-Bio Innovation and incubation, SRTM University, Nanded and Dr. Prashant Wakte, Principal DSM College Parbhani are invited as Chief Guest and Principal Dr. R.P. Mali Presided the event though Zoom Meet.

During the introductory speech the coordinator of the Science Association Dr. S. G. Tugaonkar, he motivated the students to take active role in the curricular and cocurricular activities for overall development.

### **Session I**

Dr. Gajanan B. Zore in his Inaugural Speech interacted the students on the aspects of development and commercialization of biotechnological products and various skills of commercialization by giving various examples. He motivated students to develop skills for future India.

### **Session II**

Dr. Prashant Wakte, focused on Science and technological developments in India as compared to Foreign countries. He motivated students to pursue skill-oriented education for the betterment of Society as well as country.

In the presidential address Dr. R.P. Mali, said Science, Technology and Innovation (STI) are the key drivers for economic growth and human development. For India to march ahead on a sustainable development pathway to include economic development, social inclusion and environmental sustainability for achieving an "Atmanirbhar Bharat", a greater emphasis will be given on promoting traditional knowledge system, developing indigenous technologies and encouraging grass root innovation.

The names of three toppers of the events were Declared by the dignitaries of this programme and vote of thanks carried out by Mr. Gangadhar Bhosale.

Azadi Ka Amrit Mahotsav is an initiative of the Government of India to celebrate and commemorate 75 years of progressive Independent India. Through Azadi Ka Amrit Mahotsav India is celebrating the glorious history of its people, culture and achievements. It is an embodiment of all that is progressive about India's socio-cultural, political and economic identity. The official journey of "Azadi ka Amrit Mahotsav" was started on 12th March 2021 from Sabarmati Ashram when Prime Minister, Shri Narendra Modi flagged off a 75-week long festival to commemorate 75 years of India's Independence. This started a 75-week countdown to our 75th anniversary of Independence Day and this will end post a year on 15 August 2023.

The Science association of college organizes two events each year, this year also the association organized

World Science Day

National Science Day

### **World Science Day**

The World Science Day is celebrated on December 10 every year, this year the theme is Building Climate- Ready Communities. On this occasion the college organized four different competitions for students for the development of Scientific temper.

The inauguration of the World Science day was done by the auspicious hands of Dr. A. T. Shinde Head Dept. of Sociology, Indira Gandhi Sr. College CIDCO Nanded. On the occasion of inaugural speech Dr. Shinde motivated students to develop scientific temper and inspired them to do research on agricultural productivity. Dr. G.S. Patil Head Dept. of History and Dr. D. B. Kadam Head Dept. of Chemistry are the Examiners for the Poster presentation.

**Essay Competition:** It was organized on 8-12-2021, in the seminar hall. The time provided for this competition is for one hour. Eight students were participated in the event and on the basis of extent to which topic was elaborated and content covered the first three ranks are as follows

1. Giri Ganesh Balgir – B.Sc. III
2. Ghodajkar Pratiksha Madhav- B.Sc. III
3. Kawtikwar Sejal Sainath – B.Sc. II

**Poster Presentation:** It was Organized on 10-12-2021 in the ICT Hall. 15 Students participated in this event and presented the posters on Global warming, afforestation, Digestive system etc. first three ranks of poster presentation are as follows

1. Godbole Mayuri – B.Sc. III
2. Lomte Vaibhavi - B.Sc. III
3. Manjusha Kalyankar – B.Sc. III

**Seminar Competition:** It was organized on 10-12-2021 in the seminar Hall 10 students participated in the competition. There were several topics on scientific temper and first three ranks are as follows.

1. Lomte Vaibhavi - B.Sc. III
2. Ghodajkar Pratiksha Madhav - B.Sc. III

### 3. Narsane Disha – B.Sc. I

**Quiz Competition:** It was organized on 10-12-2021 and 60 students participated in the quiz and the first three ranks are as follows

1. Shital Narwade – B.Sc. I
2. Shivkanya – B.Sc. II
3. Pandit Arti – B.Sc. III

## **National Science Day**

National Science Day is celebrated in India on 28 February each year to mark the discovery of the Raman effect by Indian physicist Sir C.V. Raman on 28 February 1928. National Science Day is being celebrated every year to widely spread a message about the Importance of science used in the daily life of the people.

Indira Gandhi Senior College celebrated the National science Day- 2022 by organizing the poster competition for all the students of the college. The event was organized in order to develop presentation skill of the students and collect the information of various world-famous scientists. The process of poster presentation will be a valuable learning experience for the college students. The topic for poster presentation was ***“Integrated Approach in Science and Technology for Sustainable Development”***. The total 10 students were participated in poster presentation competition. The poster presentation competition was inaugurated by the auspicious hand of respected principal Dr R.P. Mali and Dr. R.G Metkar Head Dept of Mathematics.

On this occasion students prepared and presented their poster which includes Renewable energy resources, Afforestation, Digestive system of human, Climate change, pollution, ability of science touch and temperature.

A committee of two assistant professors was formed to judge the performance related with poster presentation skill of the students. The member of committee includes Dr D. B. Kadam, Head department of chemistry and Dr. Dr. A. T. Shinde, Head department of Sociology. They observed all the posters and judge the students performance on various points such as poster preparation style, scientific merits and subject matter on the poster and poster presentation skill of the students.

The process of poster presentation was a valuable learning experience for the college students. On the basis of performance of students first, second and third prize were given to the following students.

<b>Sr.No</b>	<b>Name of student</b>	<b>Class</b>	<b>Prize</b>
1	Vaishnavi Kulkarni	B.Sc. III year	I
2	Gitanjali More	B.Sc. III year	II
3	Kawtikwar Sejal	B.Sc. II year	III

**Quiz competition:** It was organized on 03-03-2022 and 92 students participated in the quiz and the first three ranks are as follows

<b>Sr.No</b>	<b>Name of student</b>	<b>Class</b>	<b>Prize</b>
1	Karan Sawle	B.Sc. III year	I
2	Jay Kalegore	B.Sc. I year	II
3	Shital Narwade	B.Sc. I year	III

**Valedictory Ceremony:** It was organized on 14-03-2022

During the introductory speech the coordinator of the Science Association Dr. S. G. Tugaonkar, he delivered the proceedings of World science day and National Science day.

### **Session I**

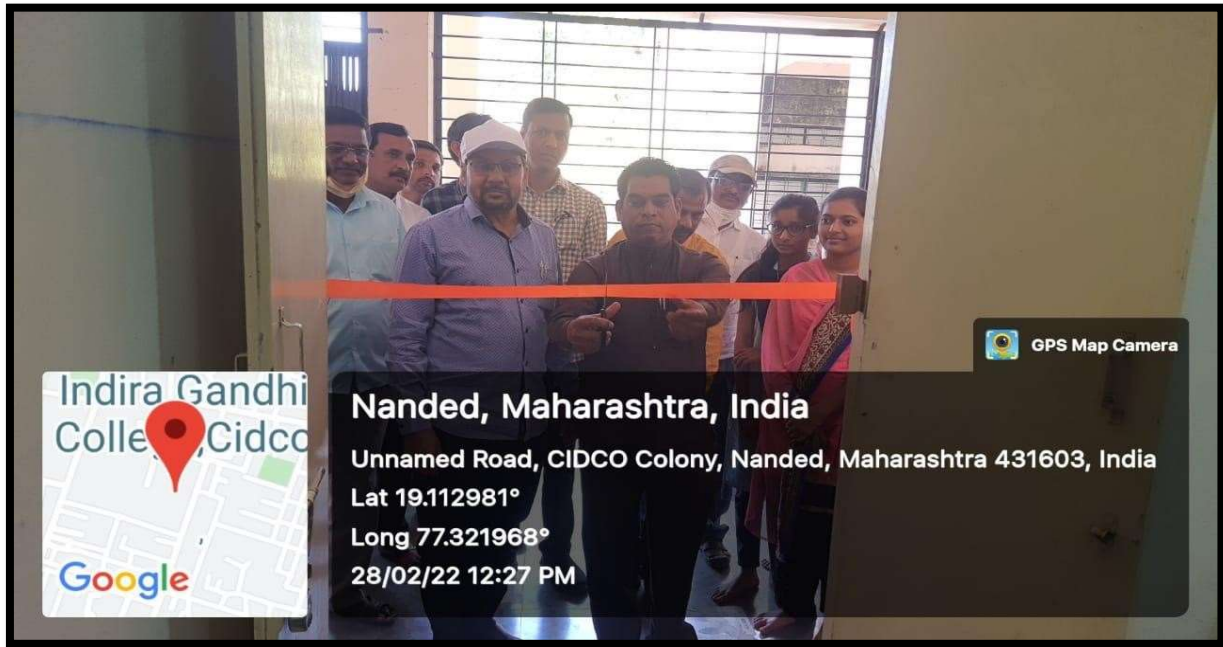

Prof. S.P. Chavan, Director, School of Life Sciences, Swami Ramanand Teerth Marathwada University Nanded in his speech interacted the students on the aspects of study visit of Antarctica. He said Antarctica territory is not owned by any nation. It takes at least two crore rupees. India still has no tourism system to go there. One has to go through America. Another way is research. Every year the government sends selected researchers for research at government expense. The

temperature there is minus ten average. There is no life there. There are organisms that can survive very low temperature. There are six months of day and six months of night. Of course, no one stays there at night. Countries nearby like New Zealand cost less in comparison. There is good oxygen, there is no dust in the atmosphere. But due to the rising temperature, the ice is melting and at least fifty percent of life on Earth will be destroyed, including animals, birds and insects other than humans will be destroyed.

As the keynote speaker, Dr. Ganchade said that, On February 28, Chandrasekhar Venkata Raman made a fundamental research on 'Raman Effect' in Physics, which later won him the Nobel Prize. Since 1987, this day has been celebrated every year as National Science Day.

Dr. Rajendra Mali, Principal of the college presided over the program and said, Science is the basis of life from time to time. He said that we should always have a scientific approach. He appreciated the poster exhibition presented by the students on the occasion of Science Day.

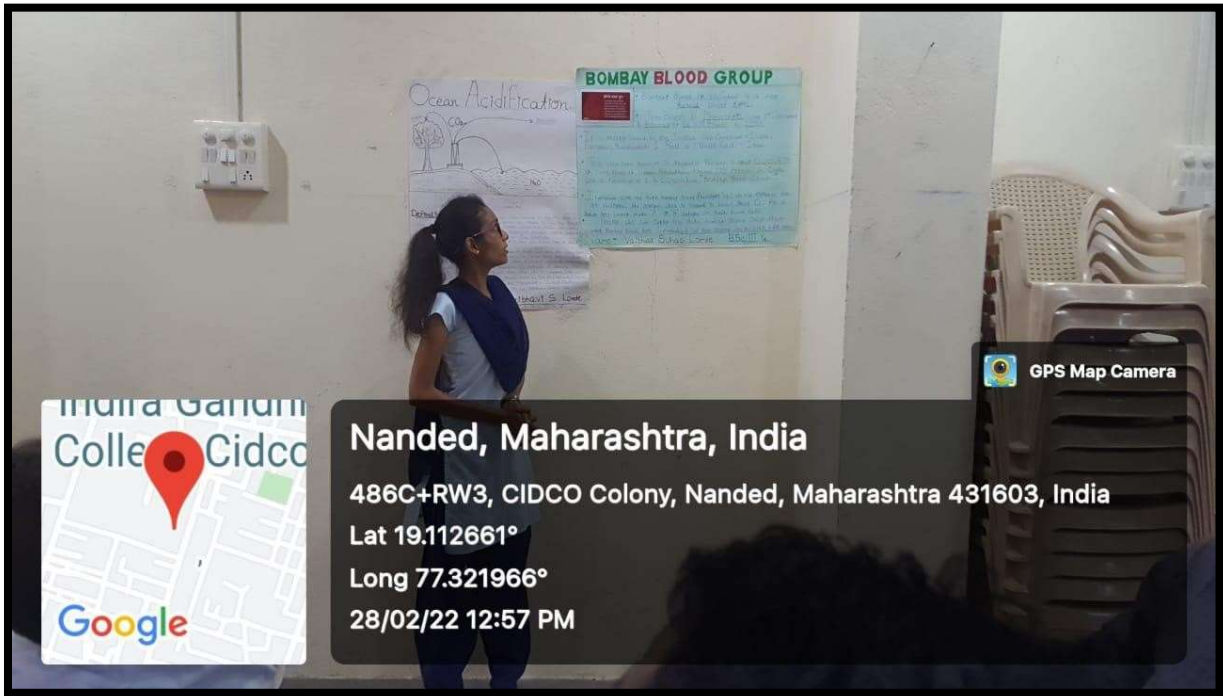

Ms. Manjusha Kalyankar, took the role of anchoring and a vote of thanks given by Vaishnavi Kulkarni believed.
