Physical education is an integral part of the Sports education. Physical education played vital role in its educational level. The importance of sports field is approved by the world also. We are seeing the improvement of sports day by day and everyone knows about the necessity of sports for the development of an individual and nation also.

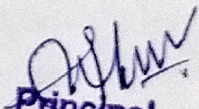

We see the difference between ancient sports and modern sports that has been developed more in the modern age. Today's age is known as the age of competition, so the quality of the sports field should be developed by using various technologies in that matter modern innovative technologies help to conduct and execute sports in better way.

By studying the physical education, players develop their Physical, Psychological, Economical and Social development resulting in the rise of nation's pride through sports. Therefore, players should be given special attention in the sports field.

Due to the COVID-19 pandemic the world had got tremendous disaster. The death ratio had in number of lakh. In the world sports Olympic Sports is recognized as a major competitive sports. These sports competition cannot become successful due to COVID-19 Pandemic which occurred in the world.

Instead of these worlds competition in the International level, National level, All India Inter University, Maharashtra Inter University, Intercollegiate Sports Tournament all the sports could not played due to COVID-19. In India also
